

ArcelorMittal

Version 15: 16/07/2013

Company: ArcelorMittal Flat Carbon Europe SA

Address: 19, avenue de la Liberté
L – 2930 Luxembourg

**Certificate on European Directive 2011/65/EU on electric and electronic equipments:
Market Industry**

Flat carbon steel production centers:

ArcelorMittal Dudelange S.A., ArcelorMittal Piombino S.p.a, ArcelorMittal Méditerranée SAS, ArcelorMittal Atlantique et Lorraine SAS, ArcelorMittal Sagunto S.L., ArcelorMittal España S.A., ArcelorMittal Sestao S.A., ArcelorMittal Belgium S.A., ArcelorMittal Bremen GmbH, ArcelorMittal Eisenhuettenstadt GmbH, ArcelorMittal Ostrava a.s, ArcelorMittal Skopje, ArcelorMittal Lesaka, ArcelorMittal Poland.

Flat carbon steels and their coatings contain neither polybrominated biphenyls (PBB) nor polybrominated diphenyl ethers (PBDE).

Steels:

Hot rolled and cold rolled steel coils and sheets are in accordance with the European Directive on electric and electronic equipments. Those products are produced without intentional additions of lead, cadmium, mercury and chromium VI.

Metallic coatings:

Galfan (Zn – Al), Aluzinc® (Al – Zn), ALUSI® (Al – Si), ALUPUR® (Al), Magnelis® (Zn – Al – Mg), Electrogalvanized (Zn) steels are in accordance with the European Directive on electric and electronic equipments. Those products are produced without intentional additions of lead, cadmium, mercury and chromium VI.

Hot dip galvanized (Zinc): if specifically required in a customer purchase order, ArcelorMittal will deliver hot dip galvanized steel without addition of lead.

Finishing treatments:

Phosphatation (P), E-passivation®, Easyfilm® E, HPE, HFE, COE are in accordance with the European Directive on electric and electronic equipments.

Chromatation (code 1) is not in accordance with the European Directive on electric and electronic equipments.

Organic coated Steels:

The ArcelorMittal organic coated steel products collection Nature, including the products *Granite®, Estetic® and xcelcoat®* are always delivered in accordance with the European Directive on electric and electronic equipments.

Other organic coated steels can also be delivered in accordance with the European Directive on electric and electronic equipments, if agreed at the time of enquiry and order.
